Kabir Verma

Software Developer | Python & Cloud

Hyderabad, India | +91 97654 32109 | kabir.verma.dev@example.com | github.com/kabirverma

PROFESSIONAL SUMMARY

Python-focused software developer interested in backend engineering, automation, cloud deployment, and data-driven applications. Experienced with FastAPI, Django, PostgreSQL, Docker, and AWS fundamentals.

TECHNICAL SKILLS

Python • FastAPI • Django • REST APIs • PostgreSQL • Redis • Docker • AWS • Linux • Git • Pytest • CI/CD • Pandas

EXPERIENCE

Python Developer Intern — CloudForge Systems | *Jan 2026 – Jun 2026*

- Developed FastAPI services for internal automation and reporting workflows.
- Containerized services with Docker and created environment-specific configuration for deployment.
- Wrote automated tests with Pytest and investigated API latency using logs and metrics.

Software Engineering Trainee — University Lab | *Jul 2025 – Dec 2025*

- Created Python automation scripts that converted repetitive spreadsheet tasks into reusable workflows.
- Built a small REST service for processing and validating structured data.

PROJECTS

DeployMate | Python • FastAPI • Docker • AWS

Deployment helper that validates configuration, packages services, and exposes health-check endpoints.

Smart Inventory API | Python • Django • PostgreSQL

Inventory management service with authentication, stock tracking, search, and reporting.

EDUCATION

B.Tech in Computer Science & Engineering — Hyderabad Institute of Engineering | 2023–2027

CERTIFICATIONS

Python for Everybody • AWS Cloud Foundations • Docker Fundamentals • Linux Essentials
